

Can we ask a favour?

Please help make public libraries an important election issue during this election.

Public libraries need increased core funding for collections, services, and programs.

Drop into your local public library for a free door hanger for home or business. It tells your candidate you care about public libraries even when you are away.

And please ask your candidate:

“Will you and your party commit to increased core funding for public libraries?”

Thank you from your local Regional Library Board.
